WHY CHOOSE VONN LIGHTING?

The emergence of LED technology seems to have taken the lighting industry by storm.

Homes, business firms and governments are quickly switching and adopting LED lighting as the solution to their global illumination problems and dramatically abandoning the traditional and conventional lighting systems for the well-known benefits of LED lighting.

Home lighting seems to have taken the larger portion of the benefit from this new development; many new homes are now being equipped with LED lights during construction.

But what is more interesting is the fact that we are now having an emerging new trend led by the emergence of LED lights.

Get the sophistication, but cut costs – LED Lighting is known for its unique designs and luxury appeal.

From traditional LED lighting to the ultra-modern contemporary fixtures modeled hard lines and angles, do not have a match in their level of sophistication.

A major drawback on the majority of the lighting system available in years past is the prohibitive replacement cost of replacement bulbs and maintenance.

However, LED technology completely takes away this worry for the customer. LED lights based on LED technology have a lifespan almost twenty times that of conventional lighting fixtures. Giving home or business owners a cutting edge in terms of maintenance and replacement costs because of their long-lasting design and functionality.

Finally, with LED lights, you get to use a beautiful but environmentally friendly lighting system.

With almost zero ray emissions, LED lights are not only beautiful but also much safer than conventional lighting fixtures. They do not come loaded with chemical elements that are potentially hazardous, and with this, you reduce the impact on the global environment, plus you can live in a safer home as well and have your home or business lighting needs well taken care of.

LIGHTING INDUSTRY + LED INNOVATIONS

WITH A UNIQUE FOCUS ON LED TECHNOLOGY, VONN PRESENTS LUXURY LED LIGHTING SOLUTIONS THAT GO BEYOND CREATIVE INNOVATION AND QUALITY.

OUR CORE VALUES

DESIGN

Our globalized artisan design process delivers on-trend, elevated fixtures in countless styles.

QUALITY

Meticulous attention to detail and rigorous efficiency delivers maximum value, safety, and quality for our clients.

INNOVATION

Intensive investment into research & development to support our dedication to innovating the most technologically advanced and environmentally conscious LED designs.

WHAT WE ARE

As a pioneer in LED lighting, we are passionate about harnessing the power of technology and the design of artisans to inspire a new era in lighting. Through intensive investment in innovation and tireless dedication to making sure our customers are satisfied, we are proud to offer a range of customizable indoor and outdoor lighting solutions for both commercial and residential use.

VONN transforms traditional lighting systems into extraordinary showpieces.

OUR MISSION

Leveraging our advanced infrastructure system, our mission is to excite our customers with the most groundbreaking LED Lighting on the market.

OUR VISION

Our vision is to transform conventional lighting by revolutionizing the way we light our world using groundbreaking LED lighting systems.

INSPIRATION & DESIGN

Deeply rooted in European design, our attention to detail, passion for precision, and the use of elite quality materials in our craftsmanship make up the essence of our LED Lighting. Utilizing advanced rendering tools like 3D modeling, virtual reality, and CGI, our global design team works with safety experts to curate a variety of designs and custom projects.

PRODUCT DEVELOPMENT

Our heavy investment in research & development allows us to bring you the most innovative technology quicker than our competitors. We partner with and work alongside the world's top architects, interior designers, and lighting consultants. As a result, we are well equipped to curate design and lighting solutions no matter the scale.

MANUFACTURING

Our futuristic production facilities follow rigorous standards for quality and safety control while remaining streamlined. We have built a hyper-efficient global supply chain that allows us to manufacture lighting for both Residential and Commercial Projects, all while maintaining the same superior caliber our craftsmen use to produce individual lighting pieces.

LOGISTICS AND FULFILLMENT

VONN operates on the most advanced cloud technology systems, such as Salesforce and SAP, which allow us to fulfill and process orders in an impressive timeline. We have developed state-of-the-art 3PL distribution centers that can ship items on behalf of each distributor, at the aggressive order fulfillment rates demanded by our partners.

CLIENT SERVICES

We are proud to prioritize and be passionate about our customers. Each of our customers receives individual care and is supported by a team of LED Lighting specialists who are on call to help identify the best lighting fixtures for their project, as well as recommend local experts.

ARCHITECTURAL

VONN LED lighting revolutionizes interiors through striking, high-end designs, and time-tested quality. Our commitment to design, technology and precision define our brand. We are proud to present you with a wide range of commercial-grade LED lighting products including custom design capabilities to fulfill project requirements of any caliber.

LED MIRRORS & CABINETS

Elevate your space with the highest standard of focus-brightness using LED Bathroom Mirrors and Cabinets. Striving for perfection during manufacturing, VONN's products' distinctive tech features and timeless aesthetics are designed to enhance your everyday routine.

DECORATIVE

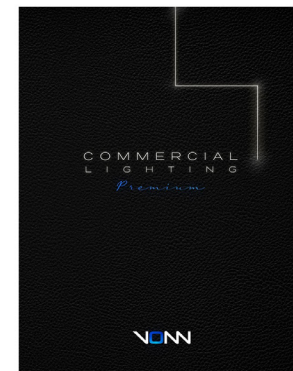

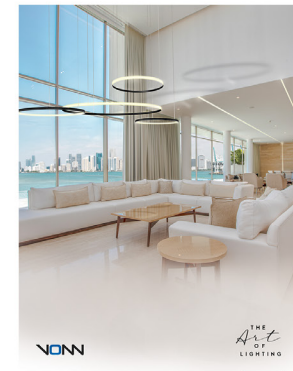

At VONN Lighting, we believe that our work stands as a testament to the quality and excellence that we as a company stand for. VONN LED lighting is featured in multiple prestigious buildings, infrastructure, and development projects. Here you'll find a selected list of some of our featured work that we believe best illustrates the skill, ingenuity and commitment to quality that we strive for in every project.

OUTDOOR LIGHTING

Explore outdoor LED Lighting from VONN with a variety of bollards, step-lights, in-ground lighting, and wall lights for your home or commercial space. Our exceptionally functional LED lighting designs provide superior outdoor illumination, while adding a stunning aesthetic or a minimal one.

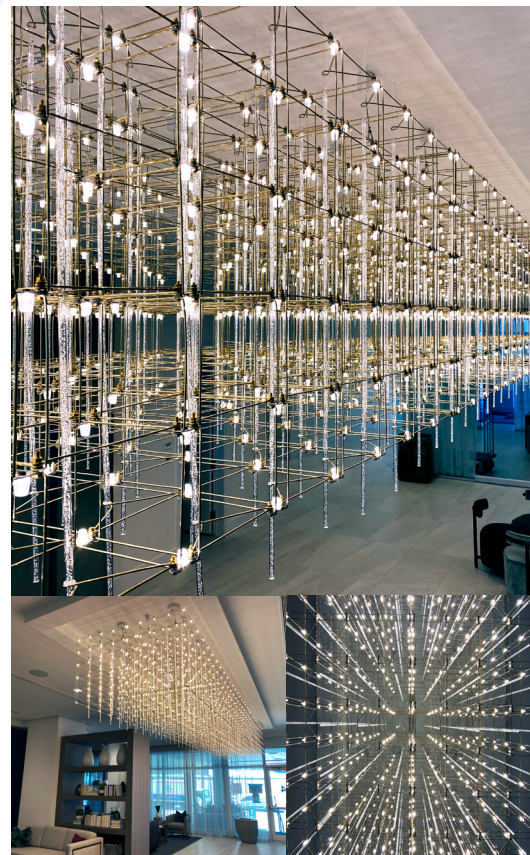

C A T A L O G S

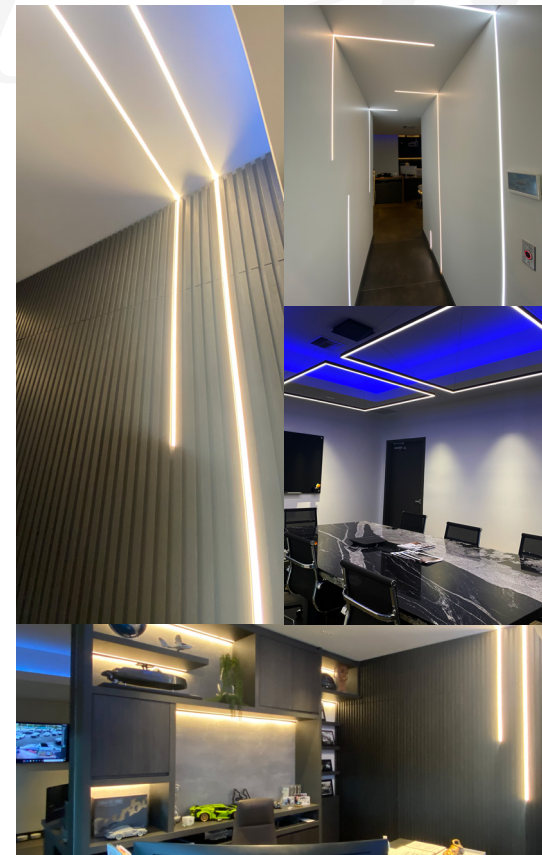

VONN, LLC. Reserves the right to make any design changes for continuous improvement which will not affect the overall appearance or performance.

Browse our recent projects to review elegant commercial and residential lighting designs. VONN offers exceptional LED lighting creations, representing a fusion between innovative solutions and aesthetic vision. We create art in lighting that enhances both the beauty and functionality of a space, leading to more positive experience.

VONN is positioned in an extremely positive upward momentum given our success in the market and the dominant online retail community. We do not simply create lighting, we turn traditional lighting fixtures into state-of-the-art LED lighting showpieces. By doing this, we revolutionize the way people light their residences and commercial spaces, offering a range of customizable designs including large-scale commercial project capability.

On top of that, one of our greatest strengths is continuing to keep environmental consciousness at the core of our values. As we try to reduce our carbon footprint in this climate conscious era, we believe that LED lighting is the most state-of-the-art yet sustainable way to light your home.

Join us on our journey to turn conventional light fixtures into extraordinary showpieces.
